Increase Awareness Using Social Media for

LIVER CANCER AWARENESS MONTH

October, 2017
American Liver Foundation
INTRODUCTION

Your continued interest in helping support the American Liver Foundation’s Mission through your own local and online communities is so much appreciated. We are hopeful that you will take advantage of the upcoming national awareness effort, Liver Cancer Awareness Month, to get more active on social media in support of the cause.

Because more attention will be focused on Liver Cancer during the month of October, it is a great time to engage the community in discussions that can elevate the critical messages you have to share. Let’s unite your voices to increase awareness and improve the lives of those impacted by Liver Cancer!

This toolkit aims to provide you with some key resources for LCAM. The idea is that this will serve as a guide for your engagement and you get started, but can be updated and tailored as you see fit.
KEY TAKEAWAY

The best way show your support on social media is to pay close attention to our posts on Facebook and Twitter throughout the month- and then share, comment and like them!
